

About the Authors

Bev Robinson is a trained and experienced microbiologist with extensive training in chemistry. She has a Bachelor of Science degree in Microbiology and Chemistry from the University of Southern Mississippi. She was on faculty at Louisiana State University and was a microbiologist for the State of Tennessee. She is author, with her husband Ras, of the recently published book, *Convergence: Quantum Physics, Scripture and Prophecy*.

God has also gifted her in artistic expression. She served for over twelve years as artist and art consultant for Fulness Magazine.

Bev serves as an elder at Fullness in Christ Church which she founded with Ras in 1992. She is also an anointed and popular teacher. Perhaps her greatest gift is her love for God's word and the ability to impart with disarming transparency the great truths of practical theology for daily living as a real person being empowered by a supernatural God.

Ras Robinson is founder and president of Fullness in Christ Ministries and founder of Fullness in Christ Church in Fort Worth, Texas where he still serves as overseeing apostle. With a Master's Degree in Business Administration from Louisiana State University, and many years of experience in management and leadership, Ras is uniquely gifted in recognizing and training leaders.

Ras was Publisher of Fulness Magazine from 1977 to 1990, a publication dedicated to encouragement in knowing the fullness of Christ, equipping Christians to minister and declaring the glory of the Lord. Before that Ras served as Manager of Broadman Products Department of Broadman Press. He served at the Baptist Sunday School Board, Southern Baptist Convention, a total of fourteen years in various leadership positions, working with pastors, seminaries and other agencies.

He resigned in 1975 to answer a call to preach and teach a message of spiritual awakening. This resignation followed a spiritual renewal in his life during 1970-75. His basic message is spiritual awakening for today.

Ras and Bev have two children, four grandchildren and seven great-grandchildren. They live in Fort Worth, Texas.
